

INSPIRE THE NEXT GENERATION OF MAKERS.

Education and Experience:

- PhD from a reputed institution in India or abroad, with 10-15 years of experience in Automotive Engineering, Mechanical Engineering, or allied disciplines.
- Demonstrated creative expertise in both teaching and industry, with a focus on cutting-edge automotive technologies.

Areas of Specialization:

- Automotive Design and Engineering
- Vehicle Dynamics & Controls
- Vehicle Electronics
- IC Engines
- Battery Characterization
- Automotive Software and IT

Responsibilities:

The candidate will be responsible for:

1. Designing a competency-based curriculum for the program.
2. Developing state-of-the-art lab facilities to support the program's objectives.
3. Delivering high-quality teaching at the postgraduate level.
4. Actively pursuing industry-academia collaborations.
5. Regularly updating the curriculum based on feedback from industry, alumni, and students.
6. Promoting practical learning through value-added courses.
7. Facilitating internships and apprenticeships with industry partners.
8. Encouraging innovation and entrepreneurship among students.
9. Managing lab resources efficiently, ensuring optimal use of specialized equipment and software tools.
10. Preparing an annual budget in consultation with the Dean (Academics) for lab resources and maintenance.
11. Advancing the academic program to position the Centre of Excellence as a leader in the field.

The candidate will be encouraged to:

- Undertake consultancy projects from the industry.
- Attend reputed conferences and seminars to develop networks, exchange ideas, and stay updated with emerging technologies.
